

Brave Face

Frank Turner

Put on your brave face, honey, your brave face, honey
And get ready for the end of the world
Put on your best clothes, take a deep breathe, don't
Bury your head, and draw yourself up tall
It might hurt a bit but don't you forget that
This too shall pass, if we survive
So put on your brave face, honey, your brave face, honey
And we'll make it to the other side

Make me a promise
That when the world ends
You'll kiss me
And you'll hold my hand
And then we'll get through this
Whatever happens
One look at your brave face
Makes me a braver man

Put on your brave face, honey, your brave face, it's funny
How fear can bring your focus in tight
Don't be ashamed, we are all shoulder some blame
For the way that nothing really turned out right
The world is a mess now, baby, it's best now if we
Start again with some new visions in mind
So put on your brave face, honey, your brave face, honey
And we'll make it to the other side

If we have to do this, let's do it smiling
And I won't let it show that my hands are shaking
We're going to die like kings and queens
Though we lived like beggars
So put on your brave face, honey, your brave face, honey
And let's go down together

Make me a promise
That when the world ends
You'll kiss me
And you'll hold my hand
And then we'll get through this
Whatever happens
One look at your brave face
Makes me a braver man

Now if we have to do this, let's do it smiling
And I won't let it show that my hands are shaking
We're going to die like kings and queens
Though we lived like beggars
So put on your brave face, honey, your brave face, honey
And let's go down together

Make me a promise
That when the world ends
You'll kiss me
And you'll hold my hand
And then we'll get through this
Whatever happens
One look at your brave face

Makes me a braver man

Put on your brave face, honey, your brave face, honey
And we'll make it to the other side
(Put on your brave face, honey, your brave face, honey)
(And we'll make it to the other side)
Put on your brave face, honey, your brave face, honey
And we'll make it to the other side
(Put on your brave face, honey, your brave face, honey)
(And we'll make it to the other side)

Put on your brave face, honey, your brave face, honey
And we'll make it to the other side
Put on your brave face, honey, your brave face, honey
And we'll make it to the other side
Put on your brave face, honey, your brave face, honey
And we'll make it to the other side
Put on your brave face, honey, your brave face, honey
And we'll make it to the other side
