

# Mother People

Frank Zappa

Do it again!

Do it again!

We are the other people  
We are the other people  
You're the other people too  
Found a way to get to you...  
Do you think that I'm crazy?  
Out of my mind?  
Do you think that I creep in the night  
And sleep in a phone booth?  
Lemme take a minute & tell you my plan  
Lemme take a minute & tell who I am  
If it doesn't show  
Think you better know  
I'm another person  
Do you think that my pants are too tight  
Do you think that I'm creepy?  
Take a look around before you say you don't care  
Shut you're fuckin mouth about the length of my hair  
If it doesn't show  
Think you better know  
I'm another person (the verse that really  
goes here has been censored out &  
recorded backwards in a special section  
at the end of side one...)  
We are the other people  
We are the other people  
You're the other people too  
Found a way to get to you  
We are the other people  
We are the other people  
You're the other people too  
Found a way to get to you  
Do you think that I love you...  
Stupid & blind?  
Do you think that I dream through the  
night  
Of holding you near me?

Lemme take a minute & tell you my plan  
Lemme take a minute & tell who I am  
If it doesn't show  
Think you better know  
I'm another person
