

## O Dreaded C Town

Frankie Cosmos

If you really need to stay inside  
Just to be sure you don't break anything  
Please don't invite me over  
Cause I don't think it is working  
Today I walked through your town  
It's ruined for me now  
I still think you're in every van  
And I peer into all of them  
You were a dealer, a friend, a prick, a friend, again  
With more to it  
Now you're a ghost, a memory  
Or maybe just a bad story  
Where are you now  
I don't really care  
Who you're around  
Who you're making scared  
I don't know or care to know  
I don't care or know to care
