

So Blue

Frankie Cosmos

I am everyone you'll never meet
I am every book you'll never read
I am the picture that didn't come out
I am the story stuck inside of your mouth

The sky is so blue
It makes everything else blue
The trucks, the stones, the view

I am so blue
I make everyone else blue
My friends, my enemies, you

I am so blue
I make everyone else blue
My friends, my enemies, you
