

# How Would U Like That

Frankie J

I'll fix you dinner and a movie  
And take a dip in the jacuzzi  
How would you like that?  
How would you like that?

We'll set the mood with some red wine  
I don't drink, but a sip's fine  
How would you like that?  
How would you like that?

Look at you, standing there  
Flirting with those eyes while you twirling your hair  
I know what you do 'cause I'm mesmerized  
We could have the time of our lives  
Tell me, how would you like that?  
How would you like that?

'Cause I would really like that

We could play a little music  
I wanna see your body grooving  
How would you like that?  
How would you like that?

Or we could pick out on some junk food  
Don't worry, baby, I won't judge you  
How would you like that?  
How would you like that?

Look at you, standing there  
Flirting with those eyes while you twirling your hair  
I know what you do 'cause I'm mesmerized  
We could have the time of our lives  
Oh, yeah, how would you like that?  
How would you like that?

'Cause I would really like that

'Cause I would really like that

How would you like that?  
How would you like that?

'Cause I would really like that

Look at you, standing there  
Flirting with those eyes while you twirling your hair  
I know what you do 'cause I'm mesmerized  
We could have the time of our lives  
Oh, yeah

I'll fix you dinner and a movie  
And take a dip in the jacuzzi  
How would you like that?  
How would you like that?
