

Fly Away

Frankie Laine

You're my anchor
I'm a kite
You're what gets me through the night
Keeps me steady and on course
'til I found you I was lost
Now you're the earth
And I'm the sky
Sometimes when I go too high
You pull the string that holds me back
If not for you I might lose track and

Fly away oh I must fly away
And go my own way
To places that we've never been together
I might fly away
Take to the sky someday
But for now
Not today
Cause nobody here is flyin'
Flying away

You have reasons I have dreams
So we're perfect so it seems
You tell fortunes
I tell truths
You kept me from my crazy youth
'cause when I'm near you I feel whole
I don't have to rock 'n' roll
I don't worry
I don't think
But hold me 'cause I'm on the brink
I might

Fly away oh I must fly away
And go my own way
To places that we've never been together
I might fly away
Take to the sky someday
But not for now
Not today
Cause nobody here is flyin'
Flying away
