

## You've Changed

Frankie Laine

That sparkle in your eye is gone  
Your smile is just a careless yawn  
You're breaking my heart  
You're kisses now are so blasé  
You're bored with me in every way  
I can't understand  
You've forgotten the words 'I love you'  
Each memory that we've shared  
You ignore every star above you  
I can't realize you've ever cared  
You're not the angel I once knew  
No need to tell me that we're through  
It's all over now
