

# Thank You

Frankie Valli

Until I met you baby  
There were no blue skies  
But since you came into life  
Everything has been so very nice

Thank you  
For loving me  
Thank you, baby  
For loving me

What can I do  
To show you, girl  
Appreciate you more  
Than you'll ever know?  
Girl, I respect you  
So come let me protect you  
And I promise  
I won't let you down  
When you need me, girl  
I'll be around

Thank you  
For loving me  
Thank you, baby  
For loving me

Girl, you're the sunshine  
In my little sky  
You're the one I need  
Hold me, you're mine  
Girl, I respect you  
So come let me protect you  
And I promise  
I won't let you down  
When you need me, girl  
I'll be around

La-la-la oh candy girl

And I promise  
I won't let you down  
When you need me, girl  
I'll be around

Thank you  
For loving me  
Thank you, baby  
For loving me
