

Thank You

Frankie Valli

Until I met you baby
There were no blue skies
But since you came into life
Everything has been so very nice

Thank you
For loving me
Thank you, baby
For loving me

What can I do
To show you, girl
Appreciate you more
Than you'll ever know?
Girl, I respect you
So come let me protect you
And I promise
I won't let you down
When you need me, girl
I'll be around

Thank you
For loving me
Thank you, baby
For loving me

Girl, you're the sunshine
In my little sky
You're the one I need
Hold me, you're mine
Girl, I respect you
So come let me protect you
And I promise
I won't let you down
When you need me, girl
I'll be around

La-la-la oh candy girl

And I promise
I won't let you down
When you need me, girl
I'll be around

Thank you
For loving me
Thank you, baby
For loving me
