

# Captain

Frankmusik

Faithful love abandoned  
Search for land we're stranded  
Storms are slowly moving in  
Feel the sun is setting  
No point in regretting  
We might make it on our own  
Cause' we used to know our way back home  
We had a lighthouse  
But will we know which way to turn  
With all the lights out

I said whos gonna captain us  
I said whos gonna captain us  
I said whos gonna navigate

Through this hurricane

Sweeping over our fate  
You said you'd keep an eye on those rocks  
I said I'd keep an eye on those rocks  
We said we'd keep an eye on them

But we've broken up again  
Think we need a captain  
I thought we had it figured  
Holding onto triggers  
Stand off pointing at our heads  
You held your ground forever  
But you lost me not so clever  
You can drown alone I guess  
Cause' we used to know our way back home  
We had a lighthouse  
But will we know which way to turn  
With all the lights out  
I said whos gonna captain us  
I said whos gonna captain us  
I said whos gonna navigate  
Through this hurricane

Sweeping over our fate  
You said you'd keep an eye on those rocks  
I said I'd keep an eye on those rocks  
We said we'd keep an eye on them  
But we've broken up again  
Think we need a captain  
I see you sinking over everything we say and do  
Sos'in you're confessin' it ain't helpin  
Now we falter in the water I reach out to you  
Currents come I don't see you swimming  
I said whos gonna captain us  
I said whos gonna captain us  
I said whos gonna navigate  
Through this hurricane  
Sweeping over our fate  
I said whos gonna navigate us  
Whos gonna navigate us

I said whos gonna navigate  
Through this hurricane  
Sweeping over our fate  
Captain  
Captain  
Captain  
Captain  
Captain  
Captain  
Captain  
Now we're breaking up again  
Now we're breaking up again  
Now we're breaking up again
