

Don't Start

Franz Ferdinand

There's only wind and dust to follow
Your footsteps on the run
You know me, know when I'm without you
I swear my heart burns in the sun

Baby, don't start walking away
Stop walking away
Start coming around and around again

I see you in your glasses clearly
Your shades are blinding me, I say
I miss you most when you are with me
I miss your missing me each day

Baby, don't start walking away
Stop walking away
Start coming around and around again
