

## Love and Destroy

Franz Ferdinand

I'm so free I could lacerate  
Rip the robes right off my chest  
I fly high above the Muscovites' sky  
I'm going to rip, rip, I'll never rest  
I'm going to meet you at midnight  
I'm going to meet you at midnight  
I'm not used to living alone  
I've got to learn or learn how to die  
I'm so free as I'm naked  
Shining silver under the moon  
It's dark beneath the Muscovites' sky  
I'm gonna rip, rip, I'll never sleep  
I'm going to meet you at midnight  
I'm going to meet you at midnight  
I'll forget about living alone  
I've got to learn, learn how to die  
Margarita, love and destroy  
I'm so free as I meet you  
Welcoming black, the Queen of the ball  
It's dark beneath the Muscovites' sky  
But you give, you give me it all  
Well I'm here with you at midnight  
Well I'm here with you at midnight  
I forget about living alone  
As I learn, learn how to die  
Margarita, love and destroy
