

Lost In Love

Freda Payne

Oh you got a way of coming on
You've got a way that haunts me yea
You keep on flying [running]through my songs
A mockin gbird you taunt me

Oh some say that I'm lost in love
You'll just leave me
But I don't care what people say
You're my dream I can feel you

Walkin down the street you by my side
Make me feel just like a rich man
All the dude's [guys] the trey to catch you're eye
You tease 'em by & take my hand

Oh some say that I'm lost in love
You'll just leave me
But I don't care what people say
You're my dream I can feel you

I came home late & found you in the bed
Cry'in in your pillow
You said "my love I've done something wrong
And I'm afraid I'll lose you"

Oh some say that I'm lost in love
You'll just leave me
But I don't care what people say
You're my dream I can feel you
