

# Crushed Glass

Freddie Gibbs

Diego, roll me one up, my nigga

The future started yesterday, nigga  
Every minute feelin' different, I am not the same nigga

I admit that I was timid at a younger age, nigga  
Daddy asked me what I wanna be, I said "A paid nigga"  
With connections out the pot, I gave myself a raise, nigga  
Heaven sent I can't remember the last time I prayed, nigga  
So the Devil introduced me to cookin' cocaine, nigga  
On the blade, seven days, ain't bathe or shave, nigga  
I was thuggin' with my trey eight  
Motherfuck a president, I got a Presidential Day-Date  
I run a check up like a Chase bank  
The police open up the package if your shipment come a day late  
I just beat a rape case, groupie bitch I never fucked  
Trying to give me ten for some pussy that I never touched  
At a certain level, system tried to test a nigga's nuts  
Nigga hire like eleven lawyers, had to level up

Living this life, just me myself and I  
Level up, you know a nigga had to level up  
If I gotta be by myself, I'm a be alright  
Level up, you know a nigga had to level up  
Living this life, just me myself and I  
Level up, you know a nigga had to level up  
And if I gotta be by myself, I'm a be alright  
Level up, you know a nigga had to level up

The future started yesterday nigga  
Every minute feelin' different, I am not the same nigga

Had a baby, now my daughter getting up in age, nigga  
When I die I bet she say, "My daddy was a paid nigga"  
'Round the world jail system like a slave trade, nigga  
Got me in this foreign prison, monkey in a cage, nigga  
Bail paid, locked me up for an extra 30 days, nigga  
Barely let us use the shower ain't bathed or shaved nigga  
I was sittin' in a cell missin' show dates  
Commissary late, I'm postin' pictures with the toothpaste  
Barely eat the food, stress'll make a nigga lose weight  
Enter the mental of a nigga that wish he knew his fate  
Shit these bitches do to try to get your cash  
Erica visit, can't wipe her tears from behind the glass  
Choppin' the porcelain up for years, said I'm suckin' glass  
I beat the DEA and the task, now I'm on my ass

Future started yesterday nigga  
Every minute feelin' different, I am not the same nigga

Donald Trump gon' chain us up and turn back to slaves, nigga  
Got the recipe for dope, my reparations paid, nigga  
Feel like that at some point, really I should feel ashamed, nigga  
They kill us, we killin' us, but that is not the way, nigga  
Money tree up in the stripper club, I'm throwin' shade, nigga  
Did destruction on your flow when I paved the lane, nigga  
Chest to chopper, blow your chest out where your heart at, nigga

Black Tony, Babyface, better scar that nigga  
Sent the hit out, I'm just waitin' on the call back, nigga  
Shoot them pussies, burn it up, don't bring the car back, nigga  
Gangsta G, I fucked the industry, them crackers say I'm too aggressive  
I turned myself into a boss without a fuckin' question  
Six whips, ghetto nigga gotta be excessive  
I came up on fried bologna, boy what you expected?  
What you expected?

Living this life, just me myself and I  
Level up, you know a nigga had to level up  
If I gotta be by myself, I'm a be alright  
Level up, you know a nigga had to level up  
Living this life, just me myself and I  
Level up, you know a nigga had to level up  
And if I gotta be by myself, I'm a be alright  
Level up, you know a nigga had to level up

Ooh, I will be alright  
Ooh, I will live my life  
Ooh, I will be alright  
Ooh, I will live my life
