

# I Seen A Man Die

Freddie Gibbs

Ten bullets in his ass, hit the gas  
Ten deep on enemy turf, me and the homies 'bout to mash  
Where that glass? Glock was plastic, smoking that gas, puff with the fastest  
Bitch get wilding, Gangsta Island, Gary  
Smiling in my casket with my eyes wide open  
I'ma make my enemy look me straight in my face before they closing  
I'ma pierce right through his soul and take control of his emotions  
Let it haunt you in your dreams  
Bitch kill you, kiss your mama, just like Bishop did Raheem  
Before I seen a nigga cry, I seen a young nigga die  
Over a Georgetown Starter jacket and some new Jordan 5s  
Blessed in this shit, blessed in this shit, question is, will I survive?  
Laid out with a hot gun smoking, on his own blood choking, Gangsta Gibbs, bitch

Before I seen a nigga cry, I seen a young nigga die  
(Gotta live my life)

Four, five niggas smoking weed in my Cadillac  
Six, seven straps with the beam, that's a matter of fact  
Eight, nine geekers, make 'em fiend for a piece of crack  
Got ten, eleven youngsters in my kitchen, watch me teach 'em that  
You call that reaching back? You call that building up?  
Fried bologna and a cracker, that was the meal for us  
Breakfast, lunch, and dinner, I, born and die a sinner, but  
Blessings over bullets, I pray the Lord deliver  
Gibbs, I'm gangbangin', caine slanging

Four, five niggas smoking weed in my Cadillac  
Six, seven straps with the beam, that's a matter of fact  
Four, five niggas smoking weed in my Cadillac  
Six, seven straps with the beam, that's a matter of fact

Lil' Sodi, Gangsta Gibbs, ESGN nigga  
Real niggas  
Fucked with him since day one, nigga  
Gangsta Gibbs  
Living our life in this cold world, nigga  
Take a slug, and still at this shit, nigga  
You already know, Lil' Sodi  
All the neighbors know, L.A
