

As Long As I Live

Freddie Hart

As long as I live I'll be here beside you
To love and to guide you as long as I live
In these tender years through life's sweet and bitter tears
Challenging all your fears as long as I live

Whatever you hunger for just ask and then say no more
There's one thing I'll always do I'll find it to satisfy you
Because you are mine we'll leave every shadow behind
And walk where the sun will shine as long as I live

Because you are mine
