

Excuse Me For Living

Freddie Hart

I quit going to the places you and I used to go
When I heard you'd been callin' me that old silly so and so
Was I silly when I kissed you was I just your favorite clown
Was I just another standing until another came around
Forgive me for loving you pardon me if I still cry
When I see you with someone new I just wish that I could die
Oh you threw me out of your life I can't help it if I'm blue
Excuse me for living if this is living without you

Seems I'm always in your way to appoint you I have tried
That just doesn't seem to be a place big enough for me to hide
I'll do anything to please you I won't call you up again
You don't have to say you know me just let me see you now and t
hen
Forgive me for loving you...
Excuse me for living if this is living without you
