

## Excuse Me For Living

Freddie Hart

I quit going to the places you and I used to go  
When I heard you'd been callin' me that old silly so and so  
Was I silly when I kissed you was I just your favorite clown  
Was I just another standing until another came around  
Forgive me for loving you pardon me if I still cry  
When I see you with someone new I just wish that I could die  
Oh you threw me out of your life I can't help it if I'm blue  
Excuse me for living if this is living without you

Seems I'm always in your way to appoint you I have tried  
That just doesn't seem to be a place big enough for me to hide  
I'll do anything to please you I won't call you up again  
You don't have to say you know me just let me see you now and t  
hen  
Forgive me for loving you...  
Excuse me for living if this is living without you
