

# What Took You So Long

Freddie Hart

I can't stand you out of my side say what took you so long  
Since you been all night what took you so long  
I've lost my mind a dozen times since you left me alone  
And you been gone at least a minute what took you so long

Have you seen a baby sparrow fall helpless to the ground  
Unable to fly back and afraid to be found  
Well that's me that's me without you whenever you are gone  
And you been gone at least a minute what took you so long

Have you seen a baby sparrow
