Whiskey River

Freddy Fender

Whiskey River, take my mind Don't let a memory talk to me Whiskey River, don't run dry You're all I got, take care of me

I'm drowning in a Whiskey River Bathing my memory's mind in the wetness of it's soul Feeling the amber current flowing from my mind To warm an empty heart you left so cold

Whiskey River, take my mind Don't let a memory talk to me Whiskey River, don't run dry You're all I got, take care of me
