

Stuck On A Stranger

Fredrika Stahl

The record is stuck
On the same old tune
I wish you and I
Could get stuck like it, too

I served you a drink
A dozen of times
Glass after glass
Just to make the night last

With you the time won't stand still
And once you walk out the door
I might not see you anymore

And I have a picture in my mind of which I can't let go
There's you and I
But the rest of the world doesn't show
And I studied every line and mark up on your face
So I can picture you at any time and any place

Your words have meaning, yet no sound
'Cause it drenched in the sun
To which we're bound
You look at me like we share a past
You smoke every cigarette like it was your last

But time won't stand still
And once you walk out the door
I might not see you anymore

And I have a picture in my mind which I can't let go
There's you and I
But the rest of the world doesn't show
And I studied every line and mark up on your face
So I can picture you at any time and any place

Any time at any place

The record is stuck
On the same old tune
Just as I'll always be
Stuck on you
