

## Hail the Legend

### Freedom Call

We're on the way to a holy land  
Our soul is bound by an ancient right of ban  
To be redeemed we have to die  
We're living only once to glorify

Our force awakens by the rise of the moon  
Born of fire we'll live and die by the sword

Armageddon lies ahead  
And god the righteous leads us on our way

A legend lives on, a legion of light  
Like brothers we walk side by side  
Hail the crown, a kingdom will come  
We are legion, we are one

The troops endeavor on, the will to survive  
Reinforce the alliance, hold on side by side

And soon we'll take our final breath  
With burning hearts we'll hold out till the end

A legend lives on, a legion of light  
Like brothers we walk side by side  
Hail the crown, a kingdom will come  
We are legion, we are one

Hope is the last thing to die  
We'll carry on the flame  
And bring back the light.... We bring back the light

A legend lives on, a legion of light  
Like brothers we walk side by side  
Hail the crown, a kingdom will come  
We are legion, we are one

A legend lives on, a legion of light  
Like brothers we walk side by side  
Hail the crown, a kingdom will come  
We are legion, we are one
