

High Up

Freedom Call

High up, high up
We're riding on high
Way over yonder to the infinite sky
High up, high up
Were living it up
Forever and ever
And we never will stop

We're on the road far away from our home
To the place of our friends we'll go
Hello, hello, for a happy night

We keep the light in your eyes shining on
Electrified by love and more
Get it on, get up for a happy night

High up, high up
We're riding on high
Way over yonder to the infinite sky
High up, high up
We're living it up
Forever and ever
And we never will stop

Never mind you're up for and burning
Make me feel that the wheels keep turning
Hello, hello, for a happy night

We're gonna set the world on fire
Nothing more than a heart's desire
Get it on, get up for a happy night

High up, high up
We're riding on high
Way over yonder to the infinite shy
High up, high up
Were living it up
Forever and ever
And we never will stop

Live, live your life, live your dream
Live it free, just live it up
- Live it up just live it up -
Get, get it on, get it up
Get it going and never stop
- Never stop, we'll never stop -

High up, high up
We're riding on high
Way over yonder to the infinite sky
High up, high up
We're living it up
Forever and ever
And we never will stop
