

# Power & Glory

## Freedom Call

Can't wait for the time, to come together  
No sleep at night, say now or never

Say, now... now we're ready to rock

The place where we are, is we're longing forever  
Thousand miles on the road, on the boat or wherever

Now... now we're coming to town

To have a good time all together

Oh, the time has come, for power & glory  
And tonight, for a happy metal party  
Oh, the time has come, for power & glory  
For a happy metal party

The crowd sounds great, the curtain falls  
The band on the stage tonight is Freedom Call

Are you ready... are you ready to rock

The crew works off their ass for us  
For the drums and the bass and the two guitars

Are you ready... we're coming to town

To have a good time all together

Oh, the time has come, for power & glory  
And tonight, for a happy metal party  
Oh, the time has come, for power & glory  
And tonight, for a happy metal party  
Oh, the time has come, for power & glory  
For a happy metal party

Happy, happy metal party

Oh, the time has come, for power & glory  
And tonight, for a happy metal party

Callers singing...  
Oh, the time has come, for power & glory  
And tonight, for a happy metal party

Callers partying!!  
Oh, the time has come, for power & glory  
And tonight, for a happy metal party  
Oh, the time has come, for power & glory  
For a happy metal party
