

# You Get Me Lost

Freedy Johnston

Did I wake you up again  
Talking in my sleep  
Unfamiliar afternoon

We were out for a little while  
Voices from the street  
Sunlight in a rented room

I don't know how  
You get me lost  
Forgotten where I'm running from

I have found  
You get me lost  
And I don't care where we're going

I'll follow you to your cloud  
Or meet you underground  
Take me with you either way

What if we'd never met  
You lead me to forget  
What I was about to say

I'm turned around  
You get me lost  
Directions wrong, way unknown

I have found  
You get me lost  
And I don't care where we're going
