Got me feeling incredible  
Got control over me  
You got me feeling insatiable  
Feel the need to be seen

You got me feeling incredible  
Got control over me  
Got me feeling insatiable  
I just need to be seen

You got me feeling incredible  
Got control over me  
Got control over me

Take me to your party  
Take me through the ice and the streets  
Take me to the awesomeness  
And this is the night we'll be free

Take my hand, I'll follow  
Take me anywhere that you please  
Take me 'til tomorrow  
And this is the night we'll be free

Take me to the city  
Let me hear the crowds and the screams  
All the flashes, all that noise  
And this is the night we'll be free

Take me to the cosmos  
Take me to the place on the screen  
Dreaming of this moment  
And this is the night we'll be free

Something random is happening  
I hope that I am prepared  
Something's suddenly different  
There's nothing left to compare

Something random is happening  
Future perfect prepare  
Something's suddenly different  
There's nothing left to compare

Something random is happening  
I hope that I am prepared  
I hope that we are prepared

Take me to your party  
Take me through the ice and the streets  
Take me to the awesomeness  
And this is the night we'll be free

Take my hand, I'll follow  
Take me anywhere that you please  
Take me 'til tomorrow  
And this is the night we'll be free
