

Magnetic

Freezpop

The first time that I met you, I could not forget you
From the moment that you appeared
Chemical reaction, the median attraction
You're already pulling me near

You're so fun, my magnetic one
You're my polar opposite
I'll enjoy my magnetic boy
There's no guilt because of it

I tried to resist it, your strange computer soul
Followed that fantasy sound
My face, when you kissed it, I think I lost control
All of my faculties down
All of my faculties down

It's like you could see through me, you already knew me
You're always a few steps ahead
Now suddenly it's seeming, you're there when I'm dreaming,
You're the song that's stuck in my head

You're so fun, my magnetic one
You're my polar opposite
I'll enjoy my magnetic boy
There's no guilt because of it

I tried to resist it, your strange computer soul
Followed that fantasy sound
My face, when you kissed it, I think I lost control
All of my faculties down
All of my faculties down
I followed that fantasy sound
All of my faculties down

You're so fun, my magnetic one
You're my polar opposite
I'll enjoy my magnetic boy
There's no guilt because of it

You're so fun, my magnetic one
You're my polar opposite
I'll enjoy my magnetic boy
There's no guilt because of it

I tried to resist it, your strange computer soul
Followed that fantasy sound
My face, when you kissed it, I think I lost control
All of my faculties down

All of my faculties down

All of my faculties down
All of my faculties down
All of my faculties down
All of my faculties down
