

You say / I'm beautiful
But the sun sets on a day
We lost that great light

One day, we'll plan a heist
Take a trip and bottle the sun
Then you can reveal yourself to everyone

Strange how at a party, suddenly you're a friend of a friend
Strange the way these things work out in the end
Strange the way I see these things that nobody else ever sees
Strange the way you're like a ghost to me
Strange the way I see these things that nobody else ever sees
Strange the way you're like a ghost to me

You dream / these gorgeous dreams
But you say when you're awake, they're lost forever

You seem so calm to me / when we're out making a scene (?)
