

We Don't Have Normal Lives

Freezepop

We're outside, it's seek and it's hide We don't have normal lives (we don't have normal lives) We survive 'til night has arrived We don't have normal lives (we don't have normal lives) Could it be, somehow you found me We don't have normal lives (we don't have normal lives) A small star, a daydream bizarre We don't have normal lives

I wouldn't have it Any other way, any other way I'll break the habit Another sunny day, another sunny day Yeah, you born from me (you were born from me) Yeah, you meant for me

Line crossed, we're found and we're lost We don't have normal lives (we don't have normal lives) The old song, they're singing along We don't have normal lives (we don't have normal lives) We make fun 'til the morning's begun We don't have normal lives (we don't have normal lives) We hold tight, another strange flight We don't have normal lives

I wouldn't have it Any other way, any other way Why break the habit Disintegrate to grey, disintegrate to grey Yeah, you born from me (you were born from me) Yeah, you meant for me

No one understands, why we are hand in hand The world is our world People look away, but we are here to stay The world is our world It happens naturally, it all makes sense to me The world is your world What's normal anyway, well, who are they to say The world is your world Your world Your world

I wouldn't have it Any other way, any other way Why break the habit Disintegrate to grey, disintegrate to grey Yeah, you born from me (you were born from me) Yeah, you meant for me
