

## Lift Me Up

French Films

These times can bring me down  
But you lift me up, yeah you you lift me up  
These times can bring me down  
But you lift me up, yeah you you lift me up  
You know

Scare politics, lost love and thrills  
Always too fucking broke to pay these bills  
No directions, late growing pains  
Teenager whores popping pills on the train

These people always bring me down  
But you lift me up, yeah you lift me up  
These people always bring me down  
But you lift me up, yeah you lift me up  
You know

All the fascist fathers and their fascist boys  
Mothers and the daughters without a voice  
Money leaders, slaves for the royal blue  
Girls who think what would miss Bradshaw do

You know it's not the end  
So lift your head  
You know it's not the end  
So lift your head  
You know it's not the end  
So lift your head  
You know it's not the end  
So lift your head

You know it's not the end  
So lift your head  
You know it's not the end
