

Take You With Me

French Films

Even though I can't get out
In my mind I'm leaving this town
And I can't stay no more
Am I ever gonna be sane again

Everybody says they've seen it all
Everybody knows everything
But all the time won't change you in my eyes
All the drugs don't do anything, no

And I can't take you with me
Oh I can't take you with me, no
And I can't take you with me
How I wish I could take you with me now

Oh you see I can't get out
But in my mind I'm leaving this town
I can't stay no more
Am I ever gonna be sane again

Like a kid I'm lying and waiting
Like a kid I'm lying and waiting
For the summer time to get around
And it's been pretty serious

And I can't take you with me
Oh I can't take you with me, no
And I can't take you with me
How I wish I could take you with me now
