

## Down Now

## French Kicks

Gotta stop now, ya get me so down  
This feeling still in everyone  
It's cheating ourself, gotta stop now  
When you do it all this way  
I've always said it's easy that way  
It's easy to manipulate  
And take me to war  
Squirrel it away when you wake up cold and alive  
You go

Butt out  
Thought I had it down now  
This is what I asked for  
Get out  
Go out  
Get down now  
But I'm not you so let it go

I hurried again to see if you grin  
A second look is all I ask for  
Nothing's wrong, when nothing's so bad  
This offence is all you live for  
You're so down, you make me slow down  
When I forgot you're just that way  
You thought you're so bad, turn me away  
I know why cuz when they wanted pictures of you  
Guy in his van, took you to hell and was all the rage and  
I was let down, cuz people go down  
Feel myself for more of the same  
And now

Butt out  
Thought I had it down now  
This is what I asked for  
Get out  
Go out  
Get down now  
But I'm not you so let it go

Butt out  
Thought I had it down now  
This is what I asked for  
Get out  
Go out  
Get down now  
But I'm not you so let it go

And I waited till today to tell you gather round to get it all  
And I waited so alone with nothin you get by with nothin  
And I waited till tonight to tell you gather around to get more  
And I waited so alone with nothin you get by with nothin

And I waited till tonight to tell you gather round to get it all  
And I waited so alone with nothin you get by with nothin  
And I waited all alone to tell you gather around to get more  
And I waited till so alone with nothin you get by with nothin
