

## Wrong Side

## French Kicks

Got you on the wrong side of me  
Went and had my mind made up so suddenly  
And it's being hungry when you can't take the thought away  
Got you on the phone guiltily  
Thinkin' how you looked at me so eagerly  
But it was some of them kids in the city  
Ended up at home on empty with the windows down  
Tryin' to say everything but knowin' you  
I'd hate to see you lookin' so down  
Wish you weren't so tied to me but you are  
Sooner later happens to all almost you all  
Right on my way home  
Still in my mind you can you give us a call?  
"Summer's so fine I don't need you at all"  
Right you so said  
Yeah  
Ended up at home on empty with the windows down  
Every time I look at you  
I see you just like lookin' through the windows downtown  
Ended up at home on empty with the windows down  
Tryin' to say everything but knowin' you  
I hate to see you lookin' so down

Got you on the wrong side of me  
Went and had my mind made up so suddenly  
And it's being hungry when you can't take the thought away  
And it saw this willin' to kill the rest of the day  
I tried to look at you that way it drives me hey oh ah  
Ended up at home on empty with the windows down  
Every time I look at you  
I see you just like lookin' through the windows downtown  
Ended up at home on empty with the windows down  
Tryin' to say everything but knowin' you  
I hate to see you lookin' so down
