

# Friends In Enemyland

Freternia

From the bottom of a river, a ring was brought to our world  
A beautiful thing the masterring, invisible it lets you  
through

The shadows call his name, in greed he killed his friend  
But things are easily lost and found by another hand  
There riddles bought him time, to escape the horrible depths  
Now several years have passed, the ring has caused a war

In darkness they move, into deepest woods  
Two friends in enemyland  
On mountain high, through valley low  
To destroy the masterring  
In darkness they move, into deepest woods  
Two friends in enemyland  
On mountain high, through valley low  
To destroy the masterring

All alone on their way to Mordor, home of the shadows, where  
no light reach

Two friends in enemyland, behind the enemy lines  
They know not of the danger ahead or where this adventure  
will end  
The shadows call his name, in greed he killed his friend  
Two friends so far from home, to destroy the masterring  
They do not know which way to go or what stranger to trust  
He cannot bear the shame, now in darkness he dwells

In darkness they move, into deepest woods  
Two friends in enemyland  
On mountain high, through valley low  
To destroy the masterring  
In darkness they move, into deepest woods  
Two friends in enemyland  
On mountain high, through valley low  
To destroy the masterring

Alone in the night on a narrow path, the eyes of the night  
shine red  
He pray for someone to show him a sign  
With darkness ahead and evil behind, on a mission to save  
the world  
Alone in the night he whisper.....I must be strong

In darkness they move, into deepest woods  
Two friends in enemyland  
On mountain high, through valley low  
To destroy the masterring  
In darkness they move, into deepest woods  
Two friends in enemyland  
On mountain high, through valley low  
To destroy the masterring
