Freundeskreis

Yeah yeah, FK Squad  
Mit meinem Mann Sèkou aka The Ambassador  
Für 1999  
Und wir haben viel Liebe zu geben  
Check it out now  
Yo cool drop the verse

There comes a time in your life you've got to go against the odds  
Take pause try to get from small to large  
It's all good struggle through and knock on wood  
I might not have always done things the way that I should  
Nor the way that I could now grow to know how  
Keep it on the low focus y'all brothers pow wow  
Watch the hour I'm on some next moves for tomorrow  
Still my suns shine that's how we blossom the flowers  
Lost one's on the bottom hardly ever seen light  
That's why the spank trouble always starting the fight  
Walking up on my boys making noise and shit  
Talking 'bout FK how they hate my clique  
I never throw fits stay calm never alarmed  
That's how I last long keep my life-line in my palm  
Yo Don turn the Mic up focus the view  
Ambassador write songs the whole world relate to

REFRAIN (2x):

To all my people left behind once I made up my mind  
All those who helped me up when I was stuck in a bind  
anyone I might have stepped on chasing these G's  
One love one heart all apologies

Yo I grew up fatherless like most black males  
It's like the whole lot of us is programmed to fail  
But in the end new beginnings get it started again  
God's speed lead your thoughts back to deep within  
Keep my feet on the ground watch who lingers around  
A lot of hard luck niggas try to get at my crown  
But I forgive them send 'em love I know what it's like  
Doing shows for no doe and if the ends ain't right  
So It's a must we bond and we can all cop this  
You do for me I do for you we both top of the list  
Wath your stock once you got it then set up shop  
Keep your eyes on the clock plus stick to your plot  
You may never be a rich star but I know who you are  
And that will take you much further than your jewels and your car  
We all got a lot to give so take heed to the song  
'Cause I'm going to live what I say to the day that I'm gone

REFRAIN 2x

Yeah yeah  
I've come a long way since it started  
Maximilian DJ Friction The Don (stay strong)

I took my time wrote it down line for line  
Take a look and you'll find truth lies in a wise rhyme  
I watch the sky follow signs like the magi  
Heard the most high that be the words of my third eye

Spoke with fire lift this bloke out of the mire  
Make it known I only quote those I admire  
My sole objective to spawn groth and inspire  
Move across the globe like a soldier for hire  
So long it's for a just cause we can spark to the cypher  
Talk politics to the day we spot Elijah  
Could have sworn it I saw him rise on the hills of Israel  
So reveal your true size and know if it's real  
We no longer have to wonder where we got our next meal  
The whole squad got stronger now we on even keel  
Enough said we could break bread and all get fed  
So take it as a compliment and let it go to your head
