

## Ex Lover

## Friendly Fires

Would you give it all  
To take you back when?  
I know its been so long  
Since you felt the same

You're all I need (5x)

When you touch the lips  
I won't forget to kiss (?)  
You hold you me in your arms  
And never let go

You hold you me in your arms  
And never let go
