

# Live Those Days Tonight

Friendly Fires

Born too late to feel the golden age  
Missed the rush, the lights of better days  
You cut me down to size with wise words  
And turn around  
Gonna feel, gonna touch, gonna hold the things you had

Don't hold back (3x)

Won't feel the times you had  
I can't touch your precious past  
But I'll live, I'll live, I'll live  
I'll live those days tonight

You claim your history  
Is beyond a man like me  
But I'll live, I'll live, I'll live  
I'll live those days tonight

Face the ghost the keeps me on the ground  
Take the best of what they talk about  
In the cold outside we're waiting  
To embrace the night and pull it close  
I'm gonna feel the love you had

Don't hold back (3x)

Won't feel the times you had  
I can't touch your precious past  
But I'll live, I'll live, I'll live  
I'll live those days tonight

You claim your history  
Is beyond a man like me  
But I'll live, I'll live, I'll live  
I'll live those days tonight

(3x)

I'll live, I'll live, I'll live  
I'll live those days tonight

(2x)

I live those days, live those dreams, like they're all mine  
I hold them close inside  
I live those days, live those dreams, like they're all mine  
Won't let them hold me back

Won't feel the times you had  
I can't touch your precious past  
But I'll live, I'll live, I'll live  
I'll live those days tonight

You claim your history  
Is beyond a man like me  
But I'll live, I'll live, I'll live  
I'll live those days tonight
