## Friendly Fires

You and me in the photobooth  
Waiting for the flash, close the curtain urgently  
You and me like young lovers do  
Timing for the kiss and close enough to hear you breathe  
You and me in the photobooth  
Waiting for the flash, style with a cup of tea  
You and me in the photobooth  
Giving it the nash, posing like we're this years models

You take a lot  
And call me up  
You should.. call  
I suppose you're right  
I tell a lie  
It may..yay end

You wanna shake it right down  
You wanna leave me somehow  
a black-and-white negatives  
You wanna shake it right?  
You wanna shake it right down  
You wanna leave me somehow  
a black-and-white negatives  
So you wanna shake it right?

You and me in the photobooth  
You and me like young lovers do  
You and me in the photobooth  
(Waiting for the flash, style with a cup of tea)  
You and me in the photobooth  
Giving it the nash, posing like we're this years models
