frnkiero andthe cellabration

So many stars in the sky and I don't know why  
They always have to fall on me  
Maybe I'm blind to all of the signs  
That the world never wanted me

I went outside today,  
Hoping the sun would burn my face  
I went outside today,  
Hoping I'd feel something

My body's weak,  
It gave up on me  
This time I don't think I will get out from  
What I'm underneath  
It's hard to believe  
Another day of rain has come and gone

"Don't go," she said  
I wouldn't mind but I'm cold inside  
I've felt this bad for so long,  
I'm scared I'm fine

I went outside today,  
Hoping the sun would burn my face  
I went outside today,  
Hoping I'd feel something

Save room for me in memories  
I'd love to always be a small part of  
What makes you smile  
From time to time,  
Just think of me and be glad I'm home

Let's close our eyes  
We've got time to make each other cry  
It's best this way  
I'm used to being left behind

I remember a time when I felt so unlike me  
I remember a time when someone could love me  
I remember when I still felt alive

"Don't go," she said  
I wouldn't mind but I'm cold inside  
I've felt so bad for so long,  
I'm scared I'm fine

So many stars in the sky and I don't know why  
They always have to fall on me  
Maybe I'm blind to all of the signs  
That the world never wanted me

I went outside today,  
Hoping the sun would burn my face  
I went outside today,  
Hoping I'd feel something
