# Live Again

**From Ashes to New**

Wish you could rewind life in itself
Cuz everyday your breathing you feel like you live in hell
We're coming or were going the feeling of never knowing
The anxiety is growing and no one is here to (HELP! )
No you can't help the things you can't see
Wish the future'd spin and show it's ugly face to me
Every day I live and every day I bleed
It's constantly reminding me of what I failed to be
The days to come will spit at you
Your hopes and dreams will fit into
A box that's ripped and split in two
Life can't be fixed with sticks and glue
But try and hold it together
One day we'll control the weather

Let me live in my skin (let go, let go)
Grip and hold it within (these memories unfold)
These Visions left in my head (they grab ahold of my soul)
Let me live it again (let go) LET GO!

If what we do is wrong then we did it all along
Will two wrongs make it right if I tell it all through song
I'll fight until it's gone with all my might until it's right
I'll change the life I forged with spite
Open my eyes to different light
Don't try to fix the past the task at hands to large to ask for that
The mask we wear is plaster cast from lies amassed through silent laughs
In futures face we spit
The shit I've been through comes from it
I use this place to help forget and reminisce the past we miss

Let me live in my skin (let go, let go)
Grip and hold it within (these memories unfold)
These Visions left in my head (they grab ahold of my soul)
Let me live it again (let go)

We can change this life to something better
We can change this life to something BETTER

(We can change this life to something better)
We've gotta let go, of our past
Man we've gotta let those, dreams crash
Change this life
We can change this life

Let me live in my skin (Let me live, let me live)
Let me live it again (Let me live, LIVE AGAIN)

Let me live in my skin (let go, let go)
Grip and hold it within (these memories unfold)
These Visions left in my head (they grab a hold of my soul)
Let me live it again (let go) let GO!
