

Stay Strong

From Atlantis

We're all just another line waiting to be crossed.
This misery and failure is always chasing me.
Just keep it up,
You got your heart in the right place,
and I'd hate to see you down.
You can't break what has already been broken
My dreams will take me away
I'm bigger then this, I'm stronger then before.
Because There's so much to live for.
I close my eyes and watch this whole world go away.
I force myself to wake up everyday.
You can't get me further down.
Can I turn these thoughts into actions?
I'll turn this page, and find the future as a new chapter.
tell me we'll be free.
I guess I should of held myself back.
Leave while you're ahead.
translated our words with more depth.
I wont live to find meaning in you.
Well get past this, just take me home
I know things will get better
I need my life to go back to how it was then
I'm trying to stay strong and get past this
But it's so damn hard
It's so hard to stay strong
These days where I think it will get better,
but things always seem, they always seem to stay the same.
I'm bigger then this, I'm stronger then before.
Because There's so much to live for.
I close my eyes and watch this whole world go away.
I force myself to wake up everyday.
You can't get me further down.
