## **Everything I Need**

## From Autumn To Ashes

I have everything I need
Innocent victims
They don't exist, who told you this?
Outfit the nation with a blindfold
And a crucifix

Infinite wisdom
A bullet for the pacifist
Improving methods
To cripple the populace

In keeping up with the font stampede
I have a choice, I could keep retreating
Out I let it run me, run me right into the ground

In keeping up with the font stampede
I have a choice I could keep retreating
Out I let it run me, run me right into the ground

I have everything I need We have no knowledge of Cause and effect Our fathers left behind The ugliest inheritance

Innocent victim
Its every kid who has a wish
Oh, God, you're in for the
Greatest disappointment

In keeping up with the font stampede
I have a choice, I could keep retreating
Let it run me, run me right into the ground

In keeping up with the font stampede I have a choice, I could keep retreating Let it run me, run me right into the ground

The ground, the ground, the ground

I let it trample me I let it trample me I let it trample me

I have everything I need Well, I have everything I need Well, I have everything I need Well, I have everything I need
