

Love It or Left It

From Autumn To Ashes

These are the keys, these are the keys
To a pulse that I've been monitoring
She loves to dream, she loves to dream
But dreamers chase and never obtain

A victory, a victory
A vicious hand on a violent streak
Learn to run, learn to run
I'll never be right for anyone

The more it gets suggested
The more I'm uninterested
Strength for now, nothing later

Love it or leave it, hated and left it
I'm trying to outgrow that phase

Drifting further away from
My element, my element, my element

These are the keys, these are the keys
To open minds and to empathy
She loves to dream, she loves to dream
It's better than her reality

A victory, a victory
I'm not as old as I used to be
I will not run, today's the day
The wheels are back on the motor arcade

The more it gets suggested
The more I'm uninterested
Strength for now, nothing later

Love it or leave it, hated and left it
I'm trying to outgrow that phase

All of my ammunition
Is for the wrong weapon
I've got the worst intention
No question, no question

Just keep it inoffensive
General admission
Right when you feel protected
I'll make you regret it

Love it or leave it, hated and left it
I'm trying to outgrow that phase
Love it or leave it, hated and left it
I'm trying to outgrow that phase

Just let me, just let me
Just let me out of this
Just let me, just let me
Just let me out of this
