

The Funny Thing About Getting Pistol Whipped Is...

From Autumn To Ashes

Extraction, no one moves
Aggravation is the current mood
Closed accounts, prosecute
Dressed in these outdated suits
Transmission incorrect
Is there anyone that's competent?
Dismissal but I can't vacate
Forcing my seeds to germinate

Like history in the making
Can we please blur the edges
Of this past memory

This will make for a great story that we will never repeat
So nod your head and tap your feet
Because that's the only review I need

The capillaries ball into a fist
I tuck it safely away inside my pocket
How can I be more obvious
Blazers are worthless when you cant produce a hit

And I hope to be the biggest disappointment
