

The things we love things we need
Take my heart away

I am standing here in front of you now
Take my heart as a gift I am saying sorry

The family we used to be
But I can't take them back
I just can't forgive myself
So sorry, please let us work it out

Sometimes we just forget the importance
Of things we see every day
But nothing lasts forever - face the truth
[Things we love, things we need]
