

I Liked You Better Before You Were Naked on the Internet

From First to Last

It's amazing what you'll find when you just open your eyes
Sometimes love can leave you blind
But still you try, to cover all the lies and ignore the signs
Sometimes love can leave you blind

What I thought was a certainty
Has left me spinning in circles again
Comparing to last time that we had spoke it seems to me
That you're not happy, like you used to be

To you I'm like a flavor that wouldn't last
You took one bite and spat me out real fast
And now this mark remains they will never ever go away
And now this mark remains they will never ever go away
And now this mark remains they will never ever go away
