

The Crows Are Coming for Us

From First to Last

How does it feel
To be ashamed
Of who you love
Well I know

You and me ought to hurry
Heaven in the glitter is for real
Real, real

Always knew
What you were
Always knew

You walk on water
You sing a lovely tune
You walk on water
You sing a lovely tune
You walk on water
You sing a lovely tune
You walk on water
You sing, sing

Always knew
What you were
Always knew

The crows are coming for us
Let them live, let them live
The crows are coming for us
Let them live, let them live
The crows are coming for us
Let them live, let them live
The crows are coming for us
Let them live, let them live
The crows are coming for us
Let them live, let them live

The crows are hungry for us
Let them live, let them live
The crows are hungry for us
Let them live, let them live
The crows are hungry for us
Let them live, let them live
The crows are hungry for us
Let them live, let them live
The crows are hungry for us
Let them live, let them live

Always knew
What you were
Always knew
What you were
(The crows are coming for us)
Always knew
(The crows are hungry for us)
What you were
(The crows are coming for us)
