

# We Are Sick

From Indian Lakes

(Verse)

I wake up when the time goes  
While I'm sitting down, sitting laying back down  
I'll be there for a long time

(Verse)

When my eyes will be half way closed  
I see you to the door  
Making sure I was sleeping so soft  
And keeping so still  
And you never made a sound  
But you better hold me down

(Chorus)

Loving you is never hard to do  
But I'm sick in bed calling me dead soon  
And if they never bring me back to you  
Will you tell me the truth  
Will you tell me the truth  
I said will you tell me the truth

(Verse)

I'll laugh around don't read loud  
I stumble like a child and I fall to the ground  
I'll be there for a long time  
I'll be there for a long time

(Verse)

And if my thoughts would've made me numb  
I'll pretend to be normal making sure always keeping in  
mind  
And keeping so still  
And you never made a sound  
But you better hold me down

(Chorus)

Loving you is never hard to do  
But I'm sick in bed calling me dead soon  
And if they never bring me back to you  
Will you tell me the truth  
Will you tell me the truth  
I said will you tell me the truth

I said will you tell me the truth  
I said will you tell me the truth  
I said will you tell me the truth

(Bridge)

Always sleeping so soft and keeping so still  
And I never made a sound but if you weren't there to  
hold me down  
Keep in mind ,keeping so still  
And I never made a sound but if you weren't there to  
hold me down

(Chorus)

Loving you is never hard to do

But I'm sick in bed calling me dead soon  
And if they never bring me back to you  
Will you tell me the truth  
Will you tell me the truth  
I said will you tell me the truth

(Outro)

Been holding on is all that I can do  
But I'm sick and there's nothing here left for you  
And if you hear will you here for us  
Will you tell me the truth  
Will you tell me the truth  
I said will you tell me the truth
