

## Eye For An Eye

## From Our Hands

Eye for an eye  
And dust to dust  
We've got no future  
We respect the past  
Eye for an eye  
And dust to dust  
Like there's no tomorrow  
We will live our lives

I wish I didn't know you  
It is no way back  
It is no way back from hell  
I can't say I don't miss you  
But my patience's gone  
And my anger's coming

Eye for an eye  
And dust to dust  
We've got no future  
We respect the past  
Eye for an eye  
And dust to dust  
Like there's no tomorrow  
We will live our lives

I am going to hate you brother  
I am going to grab you by your neck  
Tell me how you could stab me brother  
Tell me how you could stab me in the back
