

Let It Burn!

From Our Hands

Senses that are trapped inside
Will supply our blinded eyes
We've got so much to say
With hearts in fire

Self-confidence
In your mind
Truth can always burn the lie
Let the fire show you what is right

LET IT BURN!!
Feel the heat of a summer sun
LET IT BURN!!
See the barrel of a loaded gun
Problems disappear forever
Times will change for you, for better

Paranoid dreams at night
Remind me my fear for life
Things are getting weird, I'm out of mind

Eyes are blinded by the sun
Killing spree has just begun
Let the fire show you what is right
